# Features and Benefits

Product Code	Description
KEYSTN-1	Keystone Labeling System

## Stand-alone, on-demand label printing

- ♦ Facilitates label printing for patient charging and product identification
- ♦ True stand-alone functionality – other label printing products require a dedicated computer
- ♦ Not dependent on IS system - **labels can still be printed during an IT system failure!**

## Simple plug & play

- ♦ Simply setup the software, connect keyboard to the printer and print labels
- ♦ Pre-loaded with label templates and labels

## Small footprint

- ♦ Ultra compact keyboard and heavy-duty industrial printer
- ♦ Ideal for areas with limited space (e.g. Pharmacy, Warehouse)
- ♦ No computer needed where printing occurs

## Speed/Stability

- ♦ Call up and print your labels in a flash
- ♦ Able to operate continuously

## Large memory capacity

- ♦ Supports up to 10,000 unique label records

## Easy data management and secure data backup

- ♦ Data can be easily modified or saved on shared network

## Easy transition

- ♦ Existing data can be easily integrated into Keystone

## Versatile - can be used in multiple departments

- ♦ Pharmacy – Unit dose labeling
- ♦ Materials Management – Patient charging, Inventory management
- ♦ Labeling needs in other departments (eg. Lab/Admissions)

## Flexible

- ♦ Multiple options for on-demand label printing
  - o Manual entry
  - o Database driven
- ♦ Change formatting easily – font sizes, **BOLD**, Underline (MMIS/PIS systems have limited formatting capability)
- ♦ Supports multiple barcode formats, including:
  - o 1-Dimensional (Code 39, Code 128)
  - o 2-Dimensional (Datamatrix/PDF 417)

## Support

- ♦ Dedicated TimeMed technical support help line
- ♦ “Mission Critical” on-site service support comes standard

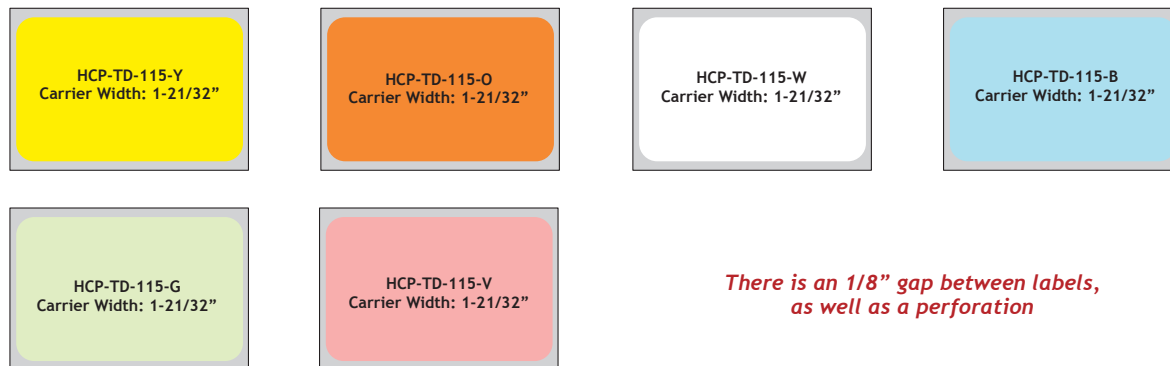

## Patient Safety

- ♦ Printed label information and barcodes can help minimize errors
- ♦ Printed labels can be used with BPOC or other closed loop verification systems
- ♦ Label content controlled by administrator
- ♦ User can only print pre-defined label formats
